

Approximate Weight: 500 Lbs. [227 Kgs]

Notes:

- Top and bottom endplates are removable to gain access inside the drive and to punch holes for conduits.
- End plates must be removed from the drive before drilling and punching holes to avoid metal dust inside the drive enclosure. Failure to do so will cause damage to the drive.
- For through-panel mounting, customer is to seal gap on both sides of cutout. Provided by customer, aluminum angle 1" x 1" x 0.050" can be used to attach to left and right sides of the drive to help seal and secure the drive.
- Size 3 enclosures can also be free-standing with optional floor stand kit from US Drives, Inc.
- All Size 4 drives are free-standing enclosures. Consult factory for dimensions.
